

## **Students satisfaction survey report (2017-2018)**

In the institution there is a system of collecting feedback from the students at the end of the course. The feedback based on the curriculum, teachers and the teaching program. The feedback is collected from the students, with the help of questionnaire. A questionnaire is prepared on the necessary attributes using 4 point rating scale. The students' response revealed that they are well aware about the requirements. As per the survey it was found that the students are satisfied with regard to –

1. Most of the students are satisfied with the teachers' performance on knowledge based communication skills of teachers and overall sincerity and commitment of the teachers.
2. With regard to the program of teaching almost all the students were satisfied with depth of the course content and its applicability to real life situation, living values and the additional source material needed for the program.
3. In relation to course content, the students' response was positive. The syllabus of each course was adequate and the syllabus was also sufficient and the course is benefiting for the real life situation of the individual.
