

## **Students satisfaction survey**

Every year Harkamaya College of Education collects feedback from students' through offline mode only but this year it was conducted through online mode. All the students' were emailed an invitation to participate in this online survey. The feedback shows the attitudes of students towards their experiences in the college. The feedback is collected from the students, with the help of questionnaire. A questionnaire is prepared on the necessary attributes using 4 point rating scale. The students' response revealed that they are well aware about the requirements. As per the survey it was found that the students are satisfied with regard to –

1. Most of the students' admiring the content knowledge of the teachers' and the explanation of application of that knowledge in real life.
2. Almost all the students' are satisfied with the depth of course content and teachers' effort to relate the information with the practical life and effort of teachers' to provide additional knowledge to them.
3. Students' response is very clear and positive regarding the course content. Students' think that syllabus is very appropriate according to their course and they think that the objective of the course content is also achievable.
